SOLOMON ABERRA MELESSE

Front-End Developer | React · Next.js · TypeScript · WordPress | Technical SEO & Core Web Vitals

Addis Ababa, Ethiopia · Open to remote · +251 945 341 787 · solomonaberra75@gmail.com · solomon@yebehir.com

PROFESSIONAL SUMMARY

Front-end developer with 4+ years shipping production **React and Next.js** applications, plus hands-on ownership of **technical SEO** for live business websites. Builds sites that are fast, crawlable and measurable: SSR/SSG architecture, code splitting, Core Web Vitals tuning, structured data and Search Console/Analytics tracking. Delivered 20+ client projects across ERP dashboards, e-commerce and e-learning, with Google Lighthouse scores consistently above 90. BSc in Computer Science; Meta- and ALX-certified. Also brings paid social, content and stakeholder experience from digital marketing and ESG roles, and has taught front-end development to 50+ students.

CORE SKILLS

Front-End	React, Next.js (SSR / SSG), TypeScript, JavaScript (ES6+), HTML5, CSS3 / SCSS, Tailwind CSS, styled-components, Redux, Context API, React Router
Performance	Core Web Vitals, Google Lighthouse, code splitting, lazy loading, bundle optimisation, Chrome DevTools
Technical SEO	Keyword research, on-page SEO, metadata, structured data (schema markup), crawlability, Google Search Console, Google Analytics
Engineering	REST APIs, GraphQL, component-driven architecture, responsive / mobile-first design, Jest, React Testing Library, Git / GitHub, Vite, Webpack, npm / Yarn
Platforms & Data	WordPress (Elementor), Figma, MongoDB, MySQL, AWS, Azure, Stripe and local payment gateways
Marketing	Meta Ads, conversion tracking, platform-specific social content, audience insights, SEO content

FRONT-END & SEO EXPERIENCE

SEO Specialist
2026 – Present

Heleph Coffee Group (E.A) Co. Limited — specialty coffee exporter | Addis Ababa

- Lead technical and on-page SEO for the company website: keyword research, metadata, structured data and content optimisation for coffee-export and specialty-coffee search terms.
- Improved organic search visibility and site speed by aligning SEO work with front-end performance and Core Web Vitals best practice; track results in Google Search Console and Google Analytics.
- Built an interactive Farmer Success Stories page and a modernised homepage in WordPress (Elementor), and write SEO blog content.

Front-End Engineer
2025 – Present

ConsultCXM (UAE-based CX consultancy) | Remote

- Architected React and Next.js applications for varied client requirements; standardised a reusable component library that shortened time-to-delivery on new builds.
- Raised performance through code splitting and lazy loading, keeping **Google Lighthouse scores consistently above 90**.
- Integrated third-party REST APIs with Redux / Context API state management and added automated tests with Jest and React Testing Library.
- Implements technical SEO changes on the consultcxm.com WordPress site from an external SEO agency's implementation guide, and publishes WordPress-ready thought-leadership articles.

ICT & Web Development Trainer
2023

Shalom University College | Addis Ababa

- Designed and delivered a front-end curriculum (HTML, CSS, JavaScript, React) to **50+ students**.
- Mentored capstone teams building full-stack React applications with Node.js back ends.

Front-End Web Developer (Freelance)
2022 – Present

Self-employed | Ethiopia & Remote

- Delivered **20+ production projects** for startups and enterprises, including ERP dashboards, e-commerce storefronts and e-learning platforms.

- Built Next.js applications with server-side rendering and static generation to improve crawlability and search performance.
- Integrated Stripe and local payment gateways with PCI-compliant checkout flows.
- Worked directly with clients to turn requirements into pixel-perfect, mobile-first interfaces.

ADDITIONAL EXPERIENCE

Digital Marketing & Web Admin 2026 – Present
Yebehir Ventures | Addis Ababa

- Run marketing across a four-brand portfolio: 4 Kilo Plaza (event venue), The Plug, Asheweyena and Bonda Bazar.
- Manage Meta paid campaigns, tracking conversion metrics to optimise spend and return on ad spend.
- Produce platform-specific content for Instagram, Facebook, LinkedIn and TikTok, and refine strategy from audience insights.

ESG Officer 2026 – Present
Kuriftu Resort & Spa | Ethiopia

- Developing an ESG framework to formalise the resort group's existing sustainability practices.
- Documenting environmental and sustainability initiatives across all branches into an evidence-based record.
- Proposed Awareness 360, an ESG awareness social action project.

Co-Founder & Director 2019 – Present
Youth Campus Ethiopia | Addis Ababa

- Co-founded and lead a youth digital-literacy initiative that runs bootcamps and workshops in partnership with educational institutions.
- Oversee the web presence, communications strategy and programme delivery.

SELECTED PROJECTS

RideFlow — blockchain-enabled vehicle rental platform

- Owned the SEO and digital marketing workstream for a sprint: SEO review, strategy presentations and a plain-language stakeholder summary.
- Corrected the Next.js architecture so page routes stay Server Components, keeping content visible to Googlebot.

Simen Land Tours — digital marketing, SEO and WordPress website management

- Directed digital marketing activity to strengthen the company's online presence.
- Managed SEO on the company's WordPress website to improve search visibility and site performance.
- Administered the website end to end, handling content updates and ongoing maintenance.

Tess Coffee — digital marketing and website administration

- Ran digital marketing and online communications to promote the brand and grow its online presence.
- Administered the brand's website, including content updates and routine maintenance.

EDUCATION
